

Installing FastFILMS InterLok Drivers to Support Windows Vista

FastFILMS is now compatible with Windows Vista (both 32 and 64 bit) by simply downloading Pace InterLok Drivers. Follow the four easy steps below.

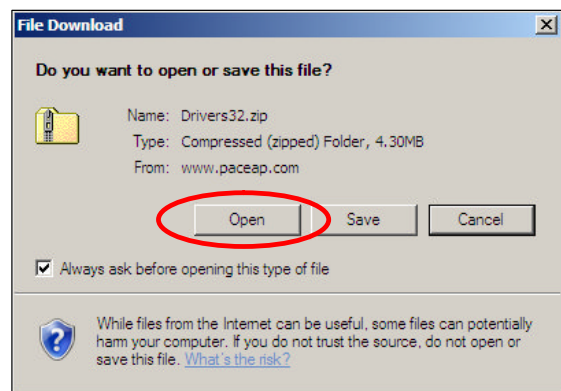

1. Click on the following link to paceap.com.

www.paceap.com

2. In the upper right-hand corner of the pace website select the appropriate driver from the dropdown menu.

3. Select Open from the File Download window.

4. When Drivers window opens double click on the Drivers folder > double click on the Setup icon to install.

Finished!!!
